

Mosquitoes

Fleas

Ticks

Heartworm

Roundworms

Hookworms

Whipworms

It is that time of the year again when we start to protect our dogs and cats from Fleas, Ticks, Mites and Heartworm (Transmitted by mosquitoes). As well as the zoonotic intestinal worms (Roundworms, Hookworms and Whipworms) that can be a risk to your family.

- ❖ *Since the life style of pets and their owners differ, the exposures to these parasites are different too. That's why at **Market Lane Animal Hospital** we carry different products to suit your needs. Like: Sentinel, Interceptor, Advantage Multi and Revolution. We will help you to choose the best product for your pet during your next visit.*

In an effort to help out clients to maintain the same level of annual care offered to their four-legged companion uncompromised during the current Global financial crisis, Market Lane Animal Hospital, with the help of Health Gene Laboratories, is proud to offer you amazing savings this year for the Heartworm DNA testing (The most accurate test available) in conjunction with any of the wellness blood test profiles. Please refer to the wellness pamphlet for more details.

There are 3 profiles that depend on the age and previous medical condition of your pet:

Wellness 1: For young healthy pets less than 2 years of age. **Save \$58**

Wellness 2: For pets 2-7 years old or pets with previous medical conditions. **Save \$50**

Wellness 3: For seniors over 7 years old. **Save \$50**

▶ **Get Free DNA testing for 5 "TICK BORN" diseases free Value \$250
When you do Heartworm and wellness tests together.**

▶ **Get \$20 rebate for each box of Revolution and \$15 for Sentinel**

▶ **Please ask the receptionist for your microchip discount during summer time:
it is ONLY \$60.00!**

We at Market Lane Animal Hospital wish to take this opportunity to thank you for your contribution to our success.

Please call us at (905) 856-6770 to schedule an appointment.
